Brødrene Sperre becomes an ice hotel for fish after installing Mobile Pallet Racking

When **Brødrene Sperre** centralised their deep freezer storage facilities into a large central warehouse, they needed access to all pallets and storage conditions to be flexible.

At any time Brødrene Sperre can store many types of fish in various sizes, which may need storing for several months before being shipped to it's next destination.

To learn more about how Constructor installed mobile pallet racking, providing capacity for 24,000 tonnes of fish which helped Brødrene Sperre become an ice hotel for fish please click the following link:
