Constructor Attends Nor-Fishing Expo

Constructor Norway attended the Nor-Fishing Expo which took place between 16th – 19th August and was held in Trondheim Spektrum.

This globally recognized event has developed into an international meeting place for the fishing industry. Today Nor-Fishing is one of the largest fisheries technology exhibitions in the world, drawing approx. 15,000 visitors from across 50 countries. Several innovations of importance were showcased during the show.

During this highly successful Expo, Constructor Norway showcased MOVO Mobile Pallet Racking and the Shuttle solution, which optimally demonstrated storage solutions to the fishing industry, while intelligently meeting their special storage requirements. Constructor Norway welcomed both old and new customers onto the stand.

Kjetil Bredesen, sales manager from Constructor Norway said: "Nor-Fishing has given us a good opportunity to show how well our storage solutions can benefit the fishing industry. It has also provided us the professional platform to discuss the storage challenges which the fishing industry are faced with daily".

The next edition of Nor-Fishing will take place between the 21st and 24th of August 2018 and registrations are already open. The floor plans will be available in January 2018.
