-A wide range of storage solutions to many purposes.

Our Special product Solutions is a conglomerate of our existing range of storage products.

Garage and workshop consist of different storage products; racks for tire, compact storage, shelving system, long goods handling, storage in cabinets, steel sheet cupboards etc.

Optim shop fitting is adaptable and all-equipped – from a corner shop to

a supermarket. It is suitable to agricultural and hardware stores, garden stores, grocery stores, discount stores and specialty shops.

Ship Shelves and cabinets are for marine use and have been developed in order to work as a safe and secure storage system in marine environments.

Lean production and picking is a storage and handling unit designed in order to raise the effectiveness at assembly and production lines.

This is what we call “branch unique storage” - designed in order to fulfill special storing demands.
